**Boxberry Students' Watercolor Art Show At Café Nomad,
Main St. in Norway during the month of April!**

History of Downtown Norway And Beyond...

Recently the students of Boxberry visited the Historical Society on Main Street in Norway. Our guide was Charles Longley. We talked about the different buildings and their history. Sometime soon we will be making models of these buildings. Periwinklers will work on their own models while Green Room students are in pairs. The buildings we will be remaking are set in the time after the great fire of Norway. Some of the buildings are Cafe Nomad, the Opera House, the Fare Share Co-op and Ari's. We are very eager to start this project and dig up the history of Norway.
By Emily T.

Connor and Mae watch Charles Longley point out features on an historical Norway map at the Norway Historical Society.

Boxberry students pose on the front steps of the Museum of Fine Arts in Boston!

Our trip to Boston was fantastic. The train ride was probably the highlight for many students, but the exhibit, "Secrets of Tomb 10-A", also proved to be very interesting. We saw many artifacts, tombs, burial boats, and even a mummified head!
